

This application claims priority to United States Provisional Patent Application Serial
Number 60/176,581, entitled NETWORK RESOURCE LOCATION DETECTION PROBE
APPARATUS AND METHOD filed on January 18, 2000, which is incorporated herein by reference.

REMARKS

The Filing Receipt mailed by the U.S. Patent and Trademark Office on April 27, 2001 indicated that Applicant's claim of priority was not in accordance with USPTO records. After a search of our records, we discovered that the above-identified patent application should properly claim priority to U.S. Provisional Patent Application Serial No. 60/176,581. The claim of priority to U.S. Provisional Patent Application Serial No. 60/178,581 recited in the first paragraph of the patent application, as filed, resulting from a clerical error.

Attached hereto is a marked-up version of the changes made to the specification by the current amendment. The attached page is captioned "Version with markings to show changes made."

DATED this 10 day of May, 2001.

Respectfully submitted,

Hal D. Baird
Reg. No. 42,284
Attorney for Applicants
